

NEW: DIGITAL PEEPHOLE

THE BETTER AND SAFER ALTERNATIVE TO A DOOR CHAIN

Know who is standing outside even before opening the door. This is made possible by a wide-angle lens that covers a broad area around the front door.

ADVANTAGES

- Safe and clear view in front of entrance door
- Not possible to look into the home from outside
- Suitable for outdoor use
- Protection class IP 65: Complete protection against contact, protection against dust penetration and protection against spraywater (from all directions)
- One-button operation
- Clear image even at low light conditions
- Battery operated (4 x AAA, included)
- 3.5" LCD colour monitor with stainless steel front panel
- 1.3 megapixel colour camera
- Viewing angle approx. 110°
- With attached or recessed* monitor
- No recording function

4 x AAA batteries, 3,5" LCD colour monitor with stainless steel front, camera module.

RECOMMENDATION

DIN 18105 (Recommendations and requirements for entrance doors) specifies a height of 1550 mm. Peepholes should typically be fitted at eye level for a standing person, this is between 1,500 mm and 1,650 mm above the top edge of the finished floor.

GB-EN - 02/18 We accept no liability for printing or literal errors and reserve the right to make technical changes.
